[Reed's Merger with Jones Soda: Good News for People Who Love Healthy Soda](#)

Yesterday it was announced that Jones Soda Company will be merging with Reed's. This is a great deal for the industry and for the people who love healthy soda.

Reed's has been on our radar for years and we love our China Cola and our Reed's Ginger Brew! This is some of the best tasting healthy soda on the face of our planet, in case you have missed out on the beverages that will contribute to your well-being rather than detract from your health.

I remember when one of the Reeds was at a tradeshow introducing us to his drinks when he first started the company. They were delicious then and they are even better now!

Reed's China Cola tastes like Coca-Cola, but not as bitter. It's better than diet soda or anything you could imagine. China Cola is a recipe that is ancient – originating in China and is still used as a digestive aid. It is THE quintessential substitute for any commercial cola drink. It bubbles, it fizzes, it delivers flavor!

You can drink China Cola just before or with or after a meal and your digestive system will get more nutrients out of the food that you eat. The ingredients of China Cola are just THAT good. It satisfies my taste buds and my tummy...and that's saying a lot, because I am exceedingly particular and demand the most from anything that I put in my body!

Reed's Ginger Brew is also one of my favorites ginger ales. It has a kick to it and the quality of the ingredients speaks volumes about the integrity of the company. If you love the way that ginger assists with your digestion; then you'll appreciate the Ginger Brew for both the health benefits as well as the flavor of ginger root with just the right sweetness. The ginger candy is also worthy of your attention!

We have been an affiliate partner with Jones Soda Company for quite some time and we love many of their products. I am a personal fan of their Jones Organics and the GABA beverage that is a newcomer on the scene. These are healthy alternative to give to your children as well as drink yourself.

The ability to customize the label and design your own when you order cases of Jones Soda has incredible market value. It's fun...it's amusing...and it's smart! If you have ever wondered what kind of a gift the discerning individual will appreciate, there's nothing like having your picture and your sayings on a bottle of Jones Soda. We hope that Reeds keeps this service as the companies pursue their merger. Jones Soda and the people are exciting and fun-loving folks who come up with the wildest flavors and ideas that actually seem to work or produce a great laugh.

When I went to my high school reunion in 1999, I visited my sister and went to the local college with my niece. In the bookstore at the college, they had just ordered their first Jones Soda in bright blue and other dazzling artificial colors. The label and the color of the soda grabbed my attention, although I did not buy any due to the fact that it was not made from natural substances. But I always enjoyed the attitude! Later when Jones added their Organics line, we decided to join their affiliate program and promote their improved products. We are proud of our association and we encourage you to try their healthy sodas if you have yet to imbibe...

All in all...this business deal should be great for the industry and fantastic for those of us who have enjoyed both companies for all the right reasons over the years. What a dynamic duo they will make as they become one company geared toward the specialty beverage market with healthy choices for those of us who demand excellence!

You can find out more and order Reed's soda and other products from their website:
