**Qiao Xing Sees Record Results In 2007 - Quick Facts [XING]**

12/27/2007 9:12:39 AM Qiao Xing Universal Telephone, Inc. (XING) announced that management expects the net results for the fourth quarter of 2007 to be positive and major indicators of financial performance for the fiscal year of 2007 for the Company to reach a record high.

The company's mobile phone business has experienced rapid growth in the first nine months of 2007 and it shipped about 3.6 million units, an increase of about 80% over last year.

The company expects the financial performance of the operations of the CECT-branded mobile phone handset business in the fourth quarter of 2007 to be better than that in the third quarter. The company estimates 45% rise in the revenue from the sales of the COSUN-branded mobile phone handsets in the fourth quarter of 2007.

Looking ahead, the company maintain its forecast that for the next five years, revenues from the telecommunication terminal business of XING would grow at a rate of 20-30% per year on average.

**Lodgian Issues Updated Information On Pursuit Of Strategic Alternatives To Enhance Shareholder Value - Quick Facts [LGN]**

12/27/2007 9:12:05 AM Lodgian Inc. (LGN) released information to update investors regarding the company's review of strategic alternatives to enhance shareholder value. These plans include increased authorization of share repurchases and the sale of additional hotel assets.

The company will continue its review of strategic alternatives to maximize shareholder value, including a sale of the entire company.

However, the current volatility in the debt and credit markets may inhibit or delay the signing or consummation of a

transaction to sell the company. As a result, Lodgian has suspended discussions with interested parties.

The company has repurchased an aggregate of 1.6 million shares of Common Stock at an average cost of \$.11.83 per share.

Lodgian has identified nine additional hotels that it intends to sell. Of the nine hotels to be sold, three have net book values in excess of anticipated net proceeds.

Therefore, the decision to sell these hotels will cause the Company to recognize an impairment charge, currently estimated to be about \$6 million, which will be recorded in the fourth quarter of 2007. The company expects to reclassify these hotels to discontinued operations in the 2008 first quarter.
