

# Gotta Love It

---

## Join Reed's Culture Club for Better Health

Can you imagine how much better your health would be and your overall energy level would feel if everytime you wanted to reach for a sugary soft drink, you opted for a sip of Reed's Culture Club Kombucha beverage instead ([www.reedsinc.com](http://www.reedsinc.com))?

Reed's newest addition to their family of bottled good for you beverages features the healing power of raw, organic, fermented Kombucha tea in a variety of dazzling flavors, including Lemon Ginger Raspberry, Cabernet Grape, Coconut Water Lime, Hibiscus Ginger Grapefruit and Passion Mango Ginger. Reed's Culture Club Kombucha gives you a daily dose of healthful probiotics for improved immune function and better digestion and is a drink with a fizzy kick that tastes great straight from the bottle or served over ice, cocktail style. We love that the container is recyclable glass, the bottle size is easy to store and the cap is resealable.
